

Metro RESA Online Teaching Endorsement

Course 2 – Coaching Educators Through Effective Online Teaching

Course Outline

Session 1	Communicating in the Online Environment - Synchronous Class: In this session, we will look at the availability of online classroom communication tools, our dispositions towards these tools, and the impact these tools have on students, teachers, and parents.
Session 2	Asynchronous Session - Communicating in the Online Environment: We will NOT meet this week. You will implement what you learned and/or reviewed in session 1 by completing tasks related to Communication in the Online Environment.
Session 3	Ensuring Student Engagement and Providing Feedback in the Online Environment - Synchronous Class: In this session, we will look at student engagement and providing feedback in the online environment.
Session 4	Asynchronous Session - Ensuring Student Engagement and Providing Feedback in the Online Environment: We will NOT meet this week. You will implement what you learned and/or reviewed by completing tasks aligned to engagement and feedback.
Session 5	Effective Collaboration in the Online Environment - Synchronous Class: In this session, we will look at strategies for facilitating and encouraging collaboration in the online environment.
Session 6	Asynchronous Session – Effective Collaboration in the Online Environment: We will NOT meet this week. You will implement what you learned and/or reviewed by conducting Action Research on a selected collaboration tool(s) and align your ability to facilitate student collaboration to the NSQ Online Teaching Standards and TKES.
Session 7	Trends in Online Education - Synchronous Class: In this session, you will learn about trends in online education. You will use the knowledge that you gain in this session to complete an action research project in your own classroom or school.
Session 8	Asynchronous Session – Trends in Online Education: You will work to complete your action research project on trends in online learning.
Session 9	Online Learning Research Sharing Session - Synchronous Class: In this session, candidates will share their most accomplished learning and asynchronous product.
Session 10	Rules, Regulations and Considerations in the Online Environment - Synchronous Class: In this session, candidates will learn about and/or review rules, regulations and considerations in the online environment.
